

Our People: Sebastian

When I go to college and leave high school, I'll leave KIPP as a whole. I think, I don't even think, I know that I will take the values we have here; at KIPP Prep we have three core values. We have crecimiento, justicia, and corazón.

Corazón is heart, just being kind to anybody. It's being kind to everybody you meet in life because we don't know everyone's walks through life. So corazón is kindness and treating people how you would like to be treated. And justicia is just doing what you believe is right. Crecimiento is growth. And I know that when I leave KIPP, I will definitely take the core value of crecimiento into the real world.

KIPP has helped me become the person I want to be by showing me... like giving me great examples of adults in my life that are just genuinely good people; people who care about you, people who want to see you do good. And I think that KIPP has taught me and has instilled those values into me.
